

Dear friends!

Ühendus Lapsed Eestis/Children in Estonia Fellowship is acting in Estonia (LEÜ) over eleven years.

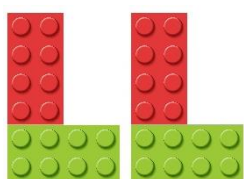

2017 our major focus will be on City Kids in our capital City and smaller cities all over Estonia.

Goal of our organisation is to offer children Christian values based free time – Good News Clubs, 5-Day Clubs, Holiday Bible Clubs, Camps, Day Camps, Mailbox Club etc.

Children deserve peaceful and supportive environment and values teaching Bible lessons. During holidays many children are without parental care and sufficient attention. We want to help their time be organized and children be cared.

Build LEGO-City

Goal: Help to create good cooperation, helping mind and secure environment.

LET'S BUILD TOGETHER
– helping mind,
counting to each other
and set the goal to your
life!

**For 3-Day-City Camp for 20 children -
200 kg LEGO-bricks are needed**

For 5-Day-City Camp – 350 kg LEGO-bricks are needed

Who will participate? Children who cannot afford to have LEGO-sets. Children who have everything, but lack love and caring children's gathering.

Program for Day Camps includes Bible lessons on building, overview of city's churches, where children can go, snacks, games and discussion time. Program has variety of different phases of building and relaxation. For each group of five children there is an adult, parent or other volunteers helping.

Ervin after the pilot project: „It was so exciting, I had never imagined. When can we continue the building Project? When will you have enough bricks?“ He chose to build the model of Oleviste Church in Tallinn.

One of several ideas

World famous buildings

1. day: „Towns”
2. day: „Walls”
3. day: „Towers”
4. day: „Bridges”
5. day: „Castles”

Needed: train volunteers and adults; rent suitable facility in neighborhood up to 20 m², room beside for snacks and at least 20 big tables.

Well done and well organized building Project needs lot of LEGO bricks.

After the 5-Day event all the building will be packed in the box boxes again and taken to another City.

Children in Estonia Fellowship (LEÜ) collects LEGO bricks!

Help us to collect LEGO bricks, sets of LEGO with the instructions.

(Please avoid the bricks from Ninjas.)

Long experience

Jürgen from Germany has done the Project over 20 years:
5-Day LEGO-camp 50 kids at a time – about 2+1 h building per day, 2 h other activities – need about 400 kg LEGO bricks.

Kristian and Mette in Denmark: 20 kids, 2 h per day, 3 days, need about 200 kg LEGO bricks.

If we have less bricks, we will organize Creative LEGO Days.

THE MORE BRICKS WE HAVE; THE MORE KIDS CAN PARTICIPATE!

Thank you for helping us!
